# Cantilevers

## DS Straight Cantilever CId38

Price **150 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	4 mm
Liner diameter	57 mm
Bearing diameter	52 mm
Shaft diameter	25 mm
Bearing	manufactured in Russia
Pipe diameter	38 mm
Pipe thickness	1,2 mm
Spring material	galvanized steel

## DS Straight Cantilever 15° CLd38

Price **150 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	4 mm
Liner diameter	57 mm
Bearing diameter	52 mm
Shaft diameter	25 mm
Bearing	manufactured in Russia
Pipe diameter	38 mm
Pipe thickness	1,2 mm
Spring material	galvanized steel

## DS z-shaped Cantilever CZd38

Price **165 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	4 mm
Liner diameter	57 mm
Bearing diameter	52 mm
Shaft diameter	25 mm
Bearing	manufactured in Russia
Pipe diameter	38 mm
Pipe thickness	1,2 mm
Spring material	galvanized steel

## DS straight Cantilever CId50

Price **200 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	5 mm
Liner diameter	76 mm
Bearing diameter	72 mm
Shaft diameter	30 mm
Bearing	manufactured in Japan
Pipe diameter	50 mm
Pipe thickness	1,5 mm
Spring material	galvanized steel

# Cantilevers

## DS Straight 15° Cantilever CLd50

Price **200 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	5 mm
Liner diameter	76 mm
Bearing diameter	72 mm
Shaft diameter	30 mm
Bearing	manufactured in Japan
Pipe diameter	50 mm
Pipe thickness	1,5 mm
Spring material	stainless steel

## DS z-shaped Cantilever CZd50

Price **215 \$**

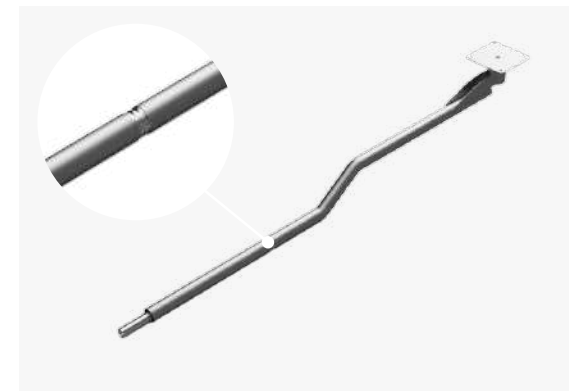

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	5 mm
Liner diameter	76 mm
Bearing diameter	72 mm
Shaft diameter	30 mm
Bearing	manufactured in Japan
Pipe diameter	50 mm
Pipe thickness	1,5 mm
Spring material	stainless steel

## DS z-shaped Cantilever CZFd50 with 2 springs

Price **230 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	1550 x 1650 x 1750 mm
Custom sizes	on order
Base thickness	5 mm
Liner diameter	76 mm
Bearing diameter	72 mm
Shaft diameter	30 mm
Bearing	manufactured in Japan
Pipe diameter	50 mm
Pipe thickness	1,5 mm
Spring material	stainless steel

## DS Straight Freight Cantilever CITd50

Price **250 \$**

Serves for flexible connection of HPH (high pressure hose) with a washing gun in the self-service car wash bay.

The 360° swivel design makes it quick and convenient to move the washing gun around the car. The spring mechanism at the end of the cantilevers reduces friction and load on the hose, and therefore increases its service life.

Stainless steel	AISI 304
Standard sizes	3000 mm
Custom sizes	on order
Base thickness	5 mm
Liner diameter	88 mm
Bearing diameter	80 mm
Shaft diameter	35 mm
Bearing	manufactured in Japan
Pipe diameter	50 mm
Pipe thickness	1,5 mm
Spring material	stainless steel

# Washing guns holders

## Washing gun holder Pd63

Price **20 \$**

Serves for convenient fixation of the washing gun in the washing bay and its safe storage. It is possible to edging the upper part with a soft polymer ring or a stainless steel ring. There are holes in the base of the holder for draining water.

Stainless steel	AISI 304
Pipe diameter	63 mm
Metal thickness	1,5 mm
Spring mechanism at the base	no

## Washing gun holder PFd63

Price **50 \$**

This holder is equipped with a spring at the base, which softens the fixation of the gun. Serves for convenient fixation of the washing gun in the washing bay and its safe storage. It is possible to edging the upper part with a soft polymer ring or a stainless steel ring. There are holes in the base of the holder for draining water.

Stainless steel	AISI 304
Pipe diameter	63 mm
Metal thickness	1,5 mm
Spring mechanism at the base	yes

# Floor mats clips

## DS Floor mat clip KN

Price **10 \$**

Used for convenient fixation of car floor mats on the walls of the car wash bay.

Stainless steel	AISI 304
Metal thickness	1 mm
Base metal thickness	1.5 mm

## DS Floor mat clip KW

Price **12 \$**

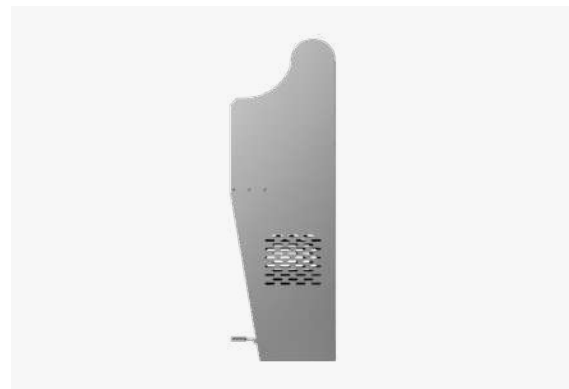

The wide design allows secure fixation of car floor mat on the wall of the wash bay and also has a more aesthetic appearance.

Нержавеющая сталь	AISI 304
Толщина металла	1.5 mm
Толщина металла основания	2 mm

# Hand wash basin

## DS hand wash basin

Price **300 \$**

Functional stainless steel hand wash basin. Designed for installation at a self-service car wash, mainly in the car wiping area. Operated by a foot pedal.

Available with heating for comfortable use in winter. An even flow of water (or a waterfall) is created due to special spout design.

---

Stainless steel	AISI 304
Metal thickness	1 mm
Base metal thickness	1.5 mm
Mechanism manufacturer	Italy

# Payment terminal

## DS Payment

Price **from 210 \$**

Stainless steel payment terminal. It accepts payments using contact and contactless payment methods, and also has the ability to expand functionality by integrating a loyalty system and an electronic fiscal data recording module.

Hinged, attached to the structure of washing bay, a durable steel body and the possibility of custom branding. Bill and coin acceptor. LED screen. OWEN controller.

---

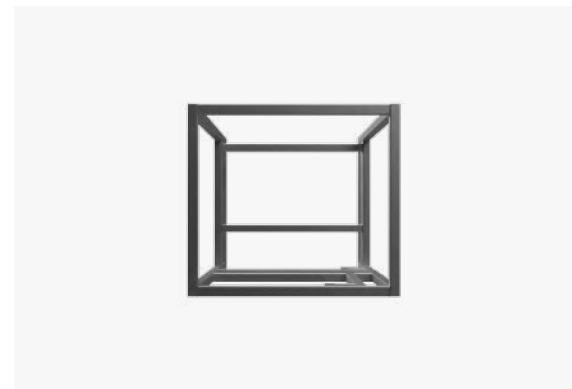

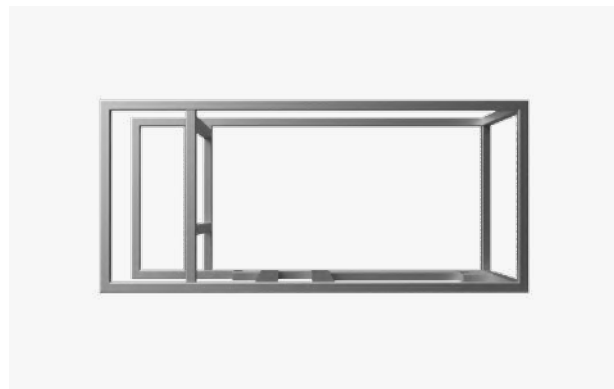

Stainless steel	AISI 304
Metal thickness	1,5 mm

# Frames

## Space Frame

Price

from 50 \$

The frame can be manufactured according to individual drawings.

Stainless steel  
Profile pipe 1  
Profile pipe 2

AISI 304  
25x25x2 mm  
50x25x2 mm

## Business Frame

Price

from 50 \$

The frame can be manufactured according to individual drawings.

Stainless steel  
Profile pipe 1  
Profile pipe 2

AISI 304  
40x40x2 mm  
40x20x2 mm

# Bodies

## Payment terminal body

Price from 300 \$

The payment terminal body can be manufactured according to individual drawings.

It's possible to add to the terminal body package:

- Coin acceptor
- Bill acceptor
- Bank terminal
- Loyalty/service card reader
- Piezo buttons depending on the number of programs
- Heating

Stainless steel  
Metal thickness

AISI 304  
1,5 - 2 mm

# Own manufactured components

## Check valves

Price 22,5 \$

DS G1/4F

## Angular rotary unions

Price 41,60 \$

Stainless steel  
Max. 400 bar / 30 rpm / 90 °C

DS 3/8" IG 3/8" AG

## Rotary unions

Price 20,80 \$

Stainless steel  
Max. 350 bar / 90 °C

DS 3/8" AG 3/8" AG
